Addendum #2

Final Addendum

Capital Project Committee

Project Information	
Project Name:	Subsurface Utility Engineering SUE Investigation for Fire Station #6
RFP Number:	FA19-06-058
Date:	June 28, 2019
Project Manager:	Brian Ward

Addendum Items	
Item 1:	Resumes do not count towards the 15 page limit.
Item 2:	The City does not have a specific binding preference other than not using comb style bindings.
Item 3:	The project limits for the 20th St extension can be found in the attached 30% plans, however the proposed 20th St extension is located in a green field building area and no utilities are known to exist within the project area outside of the Promontory Parkway corridor, as outlined in the pre-proposal meeting presentation. Any additional work required outside of the defined area will be paid for from the contingency requested in Addendum 1.
Item 4:	No effort is needed from the SUE consultant concerning "Constructible Design" other than the required SUE QLB, SUE QLA and Final SUE report documents.
