

The Greeley Forestry Program began hosting the Winter Tree Care Workshop in 1990. It continues to be the premier tree care workshop in northern Colorado. This year's workshop includes updates and state-of-the-art information from green industry consultants, Colorado State Forest Service, the City of Greeley and others. Several vendors and suppliers have also been invited to share their wares! Come help us share information about tree care.

The workshop is sponsored by:

The City of Greeley Forestry Program
Colorado State Forest Service
Colorado Tree Coalition
International Society of Arboriculture Rocky Mountain Chapter

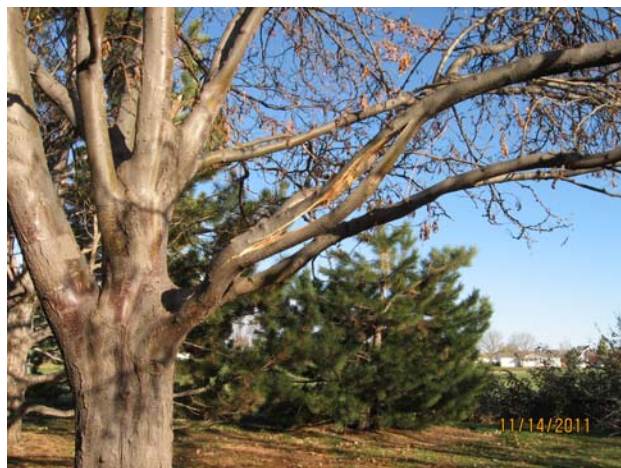

To register on line, email our office administrator doris.langham@greeleygov.com.
If you register on line, you must call Doris with your credit card information at 970-339-2405.
