

# City of Greeley Historic Preservation 2011 Event Calendar

## Greeley Historic Register

Do you live in an old house or own an old building? Are you interested in local history? Your house or building could be significant to Greeley's history and eligible for designation on the Greeley Historic Register, which is a list of buildings, properties, and historic districts that have been determined significant to Greeley's development.

An individual property may be eligible for designation if it meets at least one criterion in two of more of the following categories:

1. Historical Significance
2. Architectural Significance
3. Geographical Significance

Contact the Historic Preservation Office for more detailed information or for information about criteria for designation of individual properties or a historic district.

## Incentives

Owners of properties listed on the Greeley Historic Register are eligible for financial incentives for rehabilitation work on the designated property. Those incentives include:

1. City of Greeley Building Permit Fee Refund
2. City of Greeley Low Interest Loans
3. State Income Tax Credits

Properties that are located in the Greeley Downtown Historic District, which is on the National Register, may be eligible to apply for federal tax credits.

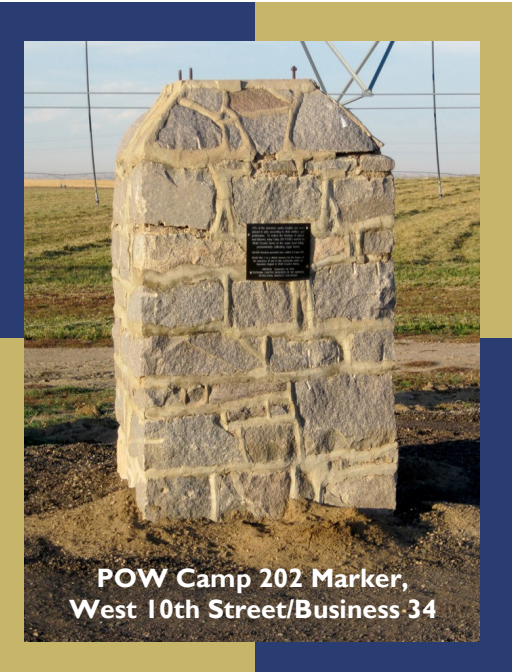

## Is your property designated or located in a historic district?

If you have work to do on your designated property or historic district property (building, house, garage or landscaping), contact the Historic Preservation office to determine if the work needs Commission approval. The application for a Certificate of Approval is available on the website.

All properties individually designated or located within historic districts are required to receive permits for alterations.

Historic Preservation Commission meetings are held the 2nd Monday of the month and the 4th Monday as needed at the City Council Chambers in the Lincoln Park Annex Building, 919 7th Street at 4:30 p.m.

**POW Camp 202 Marker,  
West 10th Street/Business 34**
