

Registered General Contractor List

The following general contractors have registered with the City of Greeley Building Inspection Department as a Certified General Contractor.

To qualify as a Certified General Contractor, the owner of the company or a representative must successfully complete the International Code Council Competency Program. This program assures that the contractor or representative has verified knowledge of building code requirements as related to types of construction.

- 1) Certification Types:
 - **General (A)** Contracting, remodeling or repairing any structure or addition
 - **Building (B)** Contracting, remodeling or repair of commercial building and Single or multi-dwelling building not exceeding three stories in height.
 - **Residential (C)** Contracting, remodeling or repair of residential buildings not exceeding two stories in height.

- 2) If you are interested in registering for a contractor certification exam, log onto the ICC Website, <http://www.iccsafe.org> select certification and testing; select contractor/trades testing; select view exams by state and category and register; select Colorado; select the type of test you are applying for and there will be a link to Pearson Vue where you can register to take the exam. You can also register by calling 1-877-234-6082. The fee is \$100 per exam to be submitted with the registration.

This register is provided for information only and not an endorsement of any of the contractors listed.
