Single family residences & duplexes with **even** numbered addresses ending in:
0, 2, 4, 6, 8

Single family residences & duplexes with **odd** numbered addresses ending in:
1, 3, 5, 7, 9

All others: home owner association common areas, multi-family residences, apartments, businesses, government, non-profit, churches, commercial, industries, and institutions.

January 1 - April 14	No Lawn Watering	No Lawn Watering	No Lawn Watering
April 15 - December 31	Sunday, Tuesday, Thursday	Monday, Wednesday, Saturday	Sunday, Tuesday, Friday

- o No lawn watering between 12:00 p.m. (Noon) and 5:00 p.m.
- o New lawn variances are available with proper soil amendment (4 cubic yards per 1,000 square feet of lawn). To properly water the lawn and comply with water restrictions a variance is required. Bring receipts for new sod or seed, compost installation, and proof of rototilling (photos, rental receipt or lawn service invoice) to the Water Department to apply.
- o Trees, shrubs, flower and vegetable gardens may be watered at any time by, drip irrigation, low volume, bubblers, sprinkler, restrictive hose nozzle, watering can, by weeping-type soaker hoses or by a hose-end sprinkler. Water trees and shrubs during prolonged dry periods to keep trees healthy.
- o Hosing paved surfaces, including decks, driveways, patios, sidewalks, vinyl siding, roof gutters, windows, and garages is allowed with minimal runoff. Excessive water flow into the gutters and leaving your property is considered waste and could result in a violation.
- o Home car washing is allowed with a restrictive nozzle hose and bucket, and minimal runoff.
- o Any person who violates the restrictions during a calendar year will be fined \$100 for the first offense, \$250 for the second, \$500 for the third, and for the fourth and subsequent violations \$500 and the cost of installing a flow restrictor to limit outdoor water use. Violations on non-residential property receives fines that are double to those described above.

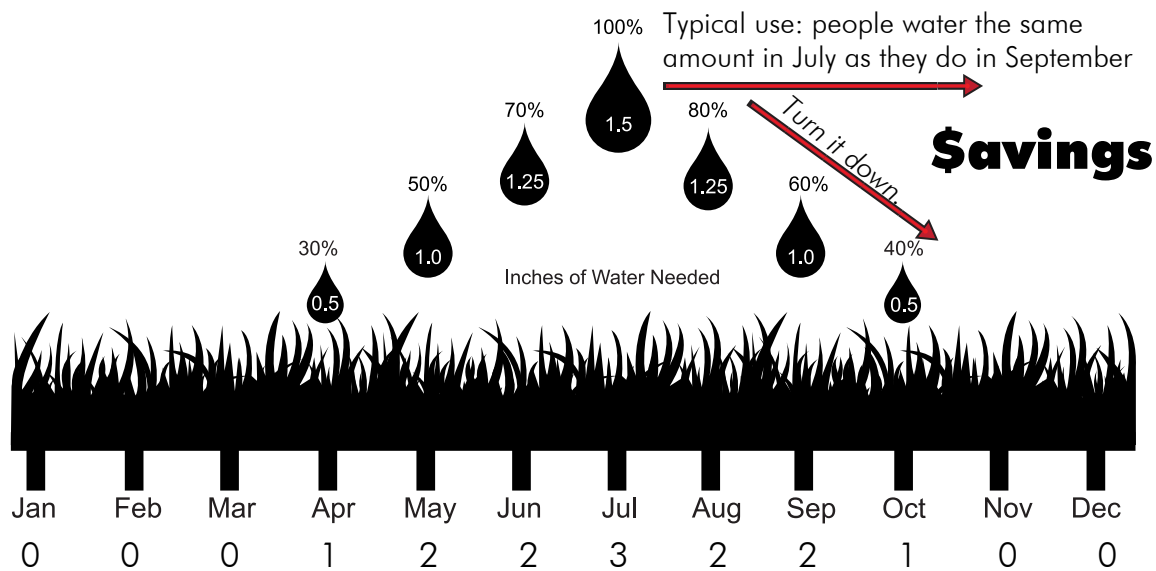

For complete water restriction information, visit www.greeleygov.com/wc or call 970-336-4134.

Lawn Watering Guidelines

A guide to help you water your lawn efficiently in Greeley

A seasonally appropriate watering schedule should be in a bell curve, with water use peaking in July. Always factor in current weather conditions when watering your lawn.

Split run times in half and run back-to-back start times. Run the entire system once and then run the system again to let the water soak into the grass. The non watering period between cycles should be about 45 minutes to 120 minutes for the best results.

Watering Days Per Week

Minutes For Pop-up Sprinklers	10	10	12	12	14	14	10
Minutes For Rotor Sprinkler Heads	62	58	92	76	66	62	60
Minutes For Rotary Nozzles	42	40	64	52	46	42	42
Minutes For Manual Sprinklers	42	38	62	52	44	40	42
