SECTION I. BACKGROUND, OVERVIEW, AND GOALS

A. Background

Anna Gimmestad Memorial Park is a 5.3 acre neighborhood park near the intersection of 31st Street Rd and 19th Ave in Greeley, Colorado. Park amenities include one large shelter, one large playground, and one permanent building used for City sponsored after-school programs like Fun in the Sun.

The playground area at Anna Gimmestad Memorial Park is located near the northwest corner of the park. There are three old pieces of equipment in poor condition in the play pit with one concrete ramp into the pit. The playground area is approximately 6,500 square feet. There is an existing 1' tall by 1' wide concrete curb surrounding the play pit with a narrow attached sidewalk.

Public outreach efforts in the neighborhood were conducted by the City in Spring 2022 to solicit feedback on what style and playground amenities park users would like to see. Those survey results are described below.

B. Overview

The playground at Anna Gimmestad Park is being updated to better serve the needs of the surrounding neighborhood. The primary goal of this project is to remove the existing play equipment and safety surfacing and add a new playground within the existing footprint.

Public engagement has indicated that nearby residents are most interested in a post and platform style play system with opportunities for climbing (Figure 1). In an open-ended survey question residents were asked what additional amenities or equipment offerings they would like to see in the new playground. Those responses are ranked in Figure 2. There was also an outreach event with approximately 60 kids from the Fun in the Sun program. Kids were asked to vote on their favorite playground amenities using dot stickers on four boards showing many different styles of playgrounds with various features. Voting results and conversations from this event supported the results from the online neighborhood survey results shown in Figures 1 and 2. It is worth noting that the children specifically requested tall slides and enough swings for the large number of kids that attend the afterschool program.

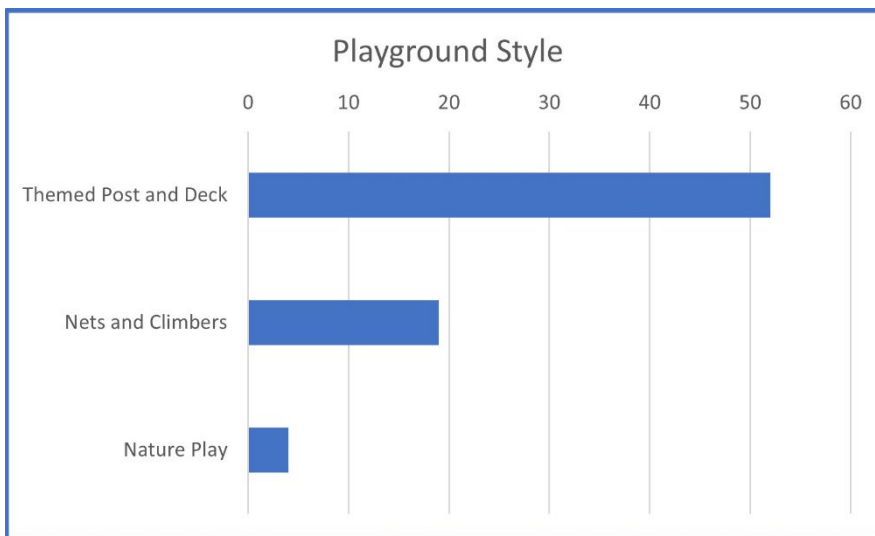

Figure 1: Ranked results from nearby residents when asked what style of playground they preferred.

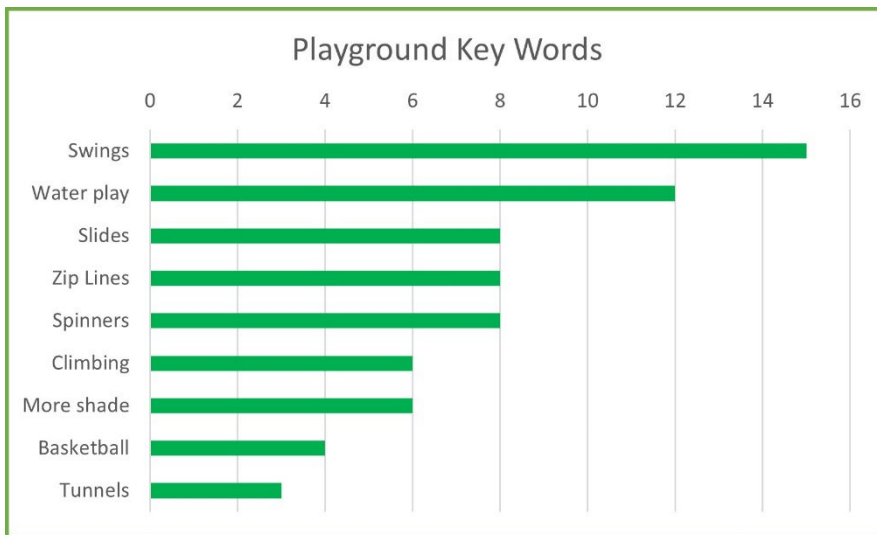

Figure 2: Ranked results from nearby residents when asked what specific amenities they wanted to see in the new playground.

The City of Greeley would like to see as many of these elements as possible incorporated into the new playground design. Proposed designs should include ample seating and shade. While water features were requested often, adding a splash pad is outside the scope of this project. However, there are existing potable water utilities nearby that could support small button activated misters or something similar. The new playground features should include equipment appropriate for toddlers, children ages 2-5 and ages 5-12. The new playground design should also include accessible and inclusive versions of the requested amenities whenever possible.

Additional information:

- The demolition of the existing play equipment and safety surfacing will be performed by the City of Greeley Streets Department.
- The total budget for playground improvements is \$300,000.00 including any related site work. Site improvements should be included in the proposal as add alternatives.
- The preferred safety surfacing is Engineered Wood Fiber, artificial turf or a combination thereof. Pour-in-place rubber may be utilized in small quantities for accessible play features and transfer stations when appropriate.
- Any site improvements unable to be performed by the playground installer should be noted in the proposal. This work will then be coordinated by the City project manager. The proposed budget will be adjusted accordingly after award.
- Play equipment storage for installation can occur inside the temporary construction fencing. Installers will be allowed to leave equipment on-site during construction. If needed, play equipment may be stored in the gated storage yard at the Parks office with approval from the project manager.

C. Goals

Provide playground equipment that has a unique look and feel and meets the needs of the neighborhood within a total design and construction budget of \$300,000. Incorporate unique elements that have not previously been used in the City of Greeley playground system as a cornerstone of this installation. Successful proposer will be required to work with the City of Greeley to revise the original design proposal to ensure that the final product meets the expectations of design and maintenance staff.

SECTION II. STATEMENT OF WORK

A. Scope of Services

The successful proposal will provide the City of Greeley Parks Division with the following playground items:

- 1) Design and installation of ADA/CPSC/ASTM compliant playground equipment per manufacturer's specifications and the design parameters identified herein.
- 2) City of Greeley staff will remove the existing playground equipment and safety surfacing in preparation of playground replacement.
- 3) Excavation and grading of subsurface as necessary to meet minimum fall depths and provide positive drainage in and around the equipment per playground manufacturer's specifications will be the responsibility of the successful vendor.
- 4) Design and installation of fall attenuating safety surfacing with ADA compliant access ramps. Surfacing will be required to meet ASTM standards for relevant fall heights and HIC testing.

B. Special Provisions

- 1) The successful proposal shall supply all supervision, labor, equipment and materials to complete the work as outlined herein.
- 2) Vendor will be responsible for the verification of all field measurements and quantities as it relates to the completion of the work.
- 3) The successful proposal will be required to submit a work schedule and attend a pre-construction meeting as necessitated by the City's project manager.
- 4) Successful vendor will be responsible for the submittal of a scaled plan/diagram of the subsurface drainage. Work will not begin until approved by project manager.
- 5) Submittal of scaled plan/diagram of equipment layout, use zones and 3D renderings/example imagery will be required for the layout of all equipment identified in the final plan.
- 6) The successful vendor will be responsible for all utility locates. On site coordination will be required for private utility locates.
- 7) Access to the work area will be limited. Access will be coordinated with the project manager prior to beginning work. On site staging will be limited and approved by the project manager.
- 8) The park and playground will remain open until construction is set to begin. The successful proposal will be expected to coordinate removal of equipment with the project manager and park staff to minimize the impact of removal and replacement on the public, limiting the amount of time the playground will be closed to the public.
- 9) The park will be open at the time of installation. The successful construction team shall be responsible for providing fencing, barricades and any necessary safety equipment to keep the site and park visitor's safe at all times.
- 10) Only those vehicles identified with Company Name/Logo are allowed in the park.
- 11) Daily cleanup of the construction site including installation tools and material is required for safety reasons.

- 13) Minimize site damage and disturbance resulting from construction. Contractor will be required to return the site to pre-construction conditions for project completion. Site damage will be the sole responsibility of the contractor to repair. This includes but is not limited to sod replacement, irrigation repair and rut repair.
- 14) An updated list of all suppliers and subcontractors working on the project will be required before the project begins.
- 15) At completion of project, employ the services of a certified NPSI third party playground auditor for the purpose of certifying ADA, CPSC and ASTM standards have been met.
- 16) All operating manuals, maintenance repair kits, equipment layout plans, and warranty information will need to be turned over prior to final payment.

C. Period of Award

The completion date of providing the required product and services shall be 120 days from the notice to proceed.

If the City desires to extend the contract, no later than thirty (30) days prior to expiration, the City's Purchasing Contact may send a notice in writing to the vendor requesting firm pricing for the next twelve-month period. After the City evaluates the firm pricing proposal from the vendor, it will determine whether to extend the contract. All awards and extensions are subject to annual appropriation of funds.
