Meeting ID: 547 603 548

if needed ph# 1-253-215-8782 US
or ph# 1-301-715-8592 US

Item 3 Are there any color specs for the conduit? Each conduit must be a minimum of 2” in diameter and be identifiable from the other conduits for the entire run of the conduit. The contractor may choose how to accomplish this. Options are for different colored conduits (or conduits with individual identifiers such as differing colored stripes), slightly different sized conduits, or some combination thereof.
