Addendum Items

Item 1:	The City does not have a preferred manufacture of the geo-fabric so long as the geo-fabric meets the project specifications.
Item 2:	Any material generated on site may be used as onsite fill however the material must be certified compliant with the specifications of the project. Testing and certification of on site material is the responsibility of the contractor. Any onsite material to be used must be approved by the City Project Manager in advance. For purposes of this proposal it shall be assumed that no onsite material shall be used for the project.
