

Campaign Finance Report Introduction

The City Clerk's Office has created this spreadsheet in response to requests from candidates and committees in past elections. We hope that the spreadsheet is easy to understand and makes your job easier. Every effort has been made to test the functionality of the spreadsheet; however, actual use by a candidate/committee is the best test of all. Therefore, if you experience any problems with the spreadsheet, please notify the City Clerk's Office immediately so that corrections can be made and new spreadsheets can be distributed if appropriate.

An attempt has been made to incorporate certain design features into this spreadsheet which will maintain the integrity of the design and which will assist you in data entry. Cells that will be filled in automatically or perform a calculation have a **blue** background. Cells have been formatted for entry of dates and dollar amounts. Certain cells or columns for text entry have been formatted to shrink text to fit in the cell. Where appropriate, cells and/or sheets have been locked to prevent alteration. **Avoid using cut, copy, and paste to complete forms as it may affect the function of the form.**

The following is a description of each worksheet (tab), including some basic instructions:

Campaign Report: This is the first page of the report. It contains all of the basic information about the committee, the type of report being filed and the reporting period, and a summary of the contributions and expenditures for the reporting period.

Detailed Summary: The Detailed Summary is used to gather and calculate data from other worksheets. In addition, it is the only place to enter your funds on hand from the previous reporting period and any earnings on your bank account.

Itemized Contributions: All monetary contributions of \$20 or more, plus any loans received by the committee should be reported here. All loans should be identified by placing an 'X' in the designated column. For all loans, please utilize the '**Loans - Detail**' worksheet (tab) to input all of the detailed information related to the loan(s).

Non-monetary Contributions: The fair market value of all non-monetary gifts or loans should be reported here.

Itemized Expenditures: All expenditures of \$20 or more should be reported on this form. By definition, an expenditure occurs when the actual payment is made or when there is a contractual agreement and the amount is determined (i.e. an obligation is made).

Contributions Returned: This form should be used to document any contributions, or portions thereof, that have been returned during the reporting period.

Expenditures Refunded: This form should be used to document any expenditures, or portions thereof, that have been refunded to the campaign during the reporting period.
