Additional Information

Selection of a Primary Care Provider- Your plan may require or allow the designation of a primary care provider. You have the right to designate any primary care provider who participates in the network and who is available to accept you or your family members. If your plan requires designation of a primary care provider, Cigna may designate one for you until you make this designation. For information on how to select a primary care provider, and for a list of the participating primary care providers, visit www.myCigna.com or contact customer service at the phone number listed on the back of your ID card. For children, you may designate a pediatrician as the primary care provider.

Direct Access to Obstetricians and Gynecologists- You do not need prior authorization from the plan or from any other person (including a primary care provider) in order to obtain access to obstetrical or gynecological care from a health care professional in our network who specializes in obstetrics or gynecology. The health care professional, however, may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan, or procedures for making referrals. For a list of participating health care professionals who specialize in obstetrics or gynecology, visit www.myCigna.com or contact customer service at the phone number listed on the back of your ID card.

Out of Pocket Maximum

Once you reach the individual or family out-of-pocket maximum (non-covered benefits are excluded from this total) in any one calendar year, covered services will be payable at 100% for the remainder of the year.

- Medical deductibles apply towards the out-of-pocket maximums

Plan Coverage for Out-of-network Providers

- The allowable covered expense for non-network services is based on the lesser of the health care professional's normal charge for a similar service or at 110% of a fee schedule developed by Cigna that is based on a methodology similar to one used by Medicare to determine the allowable fee for the same or similar service in a geographic area. In some cases, the Medicare based fee schedule will not be used and the maximum reimbursable charge for covered services is based on the lesser of the health care professional's normal charge for a similar service or supply or the amount charged for that service by 80% of the health care professionals in the geographic area where it is received. Out-of-network services are subject to a calendar year deductible and maximum reimbursable charge limitations.

Precertification Penalty

Pre-authorization is required on all inpatient admissions and outpatient surgery not performed in the doctor's office. Network providers are contractually obligated to perform pre-authorization on behalf of their customers. For an out-of-network provider, the customer is responsible for following the pre-authorization procedures. If a customer does not follow the recommended care plan for obtaining pre-treatment authorization for an out-of-network provider, an ineligible expense penalty of \$250 will be applied.

Exclusions

What's Not Covered (This Is Not All Inclusive; check your plan documents for a complete list)

- Services that aren't medically necessary
- Experimental or investigational treatments, except for routine patient care costs related to qualified clinical trials as described in your plan document
- Accidental injury that occurs while working for pay or profit
- Sickness for which benefits are paid or payable under any Worker's Compensation or similar law
- Services provided by government health plans
- Cosmetic surgery, unless it corrects deformities resulting from illness, breast reconstruction surgery after a mastectomy, or congenital defects of a newborn or adopted child or child placed for adoption
- Dental treatments and implants
- Custodial care
- Sex transformation
- Surgical procedures for the improvement of vision that can be corrected through the use of glasses or contact lenses
- Vision therapy or orthoptic treatment
- Hearing aids
- Reversal of sterilization procedures
- Nonprescription drugs or anti-obesity drugs
- Gene manipulation therapy
- Smoking cessation programs
- Non-emergency services incurred outside the United States
- Bariatric surgery - except when medical necessity guidelines are met
- Infertility services
- Treatment of TMJ disorders and craniofacial muscle disorders

These are only the highlights

This summary outlines the highlights of your plan. For a complete list of both covered and not-covered services, including benefits required by your state, see your employer's insurance certificate or summary plan description -- the official plan documents. If there are any differences between this summary and the plan documents, the information in the plan documents takes precedence.
