

CITY OF GREELEY WASTEWATER TREATMENT AND RECLAMATION FACILITY

HAULED DOMESTIC SEPTAGE QUESTIONNAIRE

The Greeley Waste water Treatment and Reclamation Facility (WTRF) is considering accepting hauled domestic septage from Weld County only for treatment. Currently only hauled domestic portable toilet waste is accepted for treatment.

"Septage" is the liquid domestic wastewater and solid material pumped from a septic tank, cesspool, or other primary treatment source.

"Domestic Wastewater " is a combination of liquid wastes (sewage) which may include household chemicals, household wastes, human excreta, animal or vegetable matter in suspension or solution or other solids in suspension or solution which are discharged from a dwelling, building or other structure. Domestic Wastewater does not include commercial or industrial wastewater or grease removed from a restaurant grease trap.

Please complete the following survey if your business is interested in discharging hauled domestic septage at the Greeley WTRF on a trial basis. You may also download an electronic fillable form version of the questionnaire at our web site:

[Industrial Pretreatment | City of Greeley](#)

You may send the questionnaire to: joe.kunovic@greeleygov.com. Mail to: Greeley WTRF, 300 East 8th Street, Greeley, CO, 80631. Fax to: (970) -350-9366.

Based upon your responses to the survey, the City will evaluate which businesses and how much domestic septage will be accepted for trial basis treatment at the Greeley WTRF.

Thank you.
