Section 17-10 Procedures for Acquisition and Provision of Ground Water and/or Recycled Wastewater.

- a. No ground water and/or recycled wastewater may be purchased/leased, and/or provided, either directly, through the City's ownership of existing ground water rights, or indirectly, through ownership of shares in ditch and reservoir companies, through the City of Greeley's water system, water treatment plants or other water infrastructure, to the registered electors of Greeley for their drinking water and/or non-potable use unless and until the question of whether to purchase/lease and/or provide such ground water or recycled wastewater has first been submitted to and approved by a majority vote of the registered electors of the City of Greeley.
- b. Prior to submitting the question of the purchase/lease of ground water and/or recycled wastewater to the voters, the City Council shall cause a comprehensive and objective independent engineering study to be performed to determine the long-term effects, benefits, cost, advantages, disadvantages and advisability of such an action.
- c. The engineering report, including all data and calculations, conclusions, and recommendations, shall be complete and available for inspection by the public, and copies shall be available to the public at least sixty (60) days prior to the election. The City Council shall hold at least one public hearing on the question at least thirty (30) days prior to the election. The engineer who prepared the
