TOTALS	96	608	4314	4291

*Note: Initial total signatures is the total of lines on a petition section that have any level of information. This figure is different than the number of total signatures submitted, determined after further review of each section to determine the number of signatures submitted, minus any lines that were fully crossed out.

**This is the date the most current version of a section log was posted. After initial publication but prior to final certification, logs may be updated as verifications continue.
