

# Building Guide

Colorado Chapter of the International Code Council

## Single Family Residential One Story Detached Garage

### How to Use this Guide

Check with your jurisdiction regarding type of submittal (paper or electronic) and for any additional requirements. Draw to scale or provide dimensions and complete the following (hint: use graph paper with 1/4" squares. Example: 1/4" = 1").

- 1. Complete this Building Guide** by filling in the blanks on page three and four and indicate which construction details will be used on page five.
- 2. Provide a Plot Plan(site plan)** showing the dimensions of the proposed garage, its relationship to existing buildings/ structures, the distances to adjacent property lines and the distance to any other structures existing on the lot.
- 3. Fill out Building Permit Application**

The majority of permit applications are processed with little delay. The submitted documents will help determine if the project is in compliance with building safety codes, zoning ordinances and other applicable laws.

The Colorado Chapter of The International Code council is a professional organization seeking to promote the public health, safety, and welfare of building construction. We appreciate your feedback and suggestions. Please write to Colorado Chapter of the International Code Council, at P.O. Box 961, Arvada, CO 80001. This Building guide can be found on the Colorado Chapter of the International Code Council website at:

## Notes:

1. For roofs with slopes less than 4:12, follow manufacturer's requirements for low slope application of roofing material.
2. Pre-engineered roof trusses with uplift connectors/ hurricane ties may be used in lieu of roof structure shown. Provide stamped truss calculations and layouts.
